## US001 | Sign Up | Create an account in Chrome Canary

### *Description*

As a new user,

I want to create an account,

So that I can use Chrome Canary with my own account.

### In Scope

Check registration (sign up) form:

1. “Create a Google Account” page
2. “Basic Information” page
3. “How you’ll sign in” page
4. “Create a strong password” page

### Out of Scope

- Custom (Gender)
- Add phone number
- Review your account info
- Privacy and terms

## Sign up form:

- First Name
- Surname (optional)
- Birth day
- Month
- Year
- Gender
- Username
- Password

## Mockup

Create a Google Account

Enter your name

Basic information

Enter your birthday and gender

Google

How you'll sign in

Create a Gmail address for signing in to your Google Account

Username

@gmail.com

You can use letters, numbers & periods

Next

<

○

≡

Google

Create a strong password

Create a strong password with a mixture of letters, numbers and symbols

## ✓ Acceptance Criteria

### Scenario #1 (Sign up happy path)

*User successfully creates an account.*

- Given** user is on the registration page,
- When** fill in the registration form correctly,
- And** taps on the NEXT or REGISTER button,
- Then** a successful message appears.

6

---

## Scenario #2 (Try to Sign up with wrong data)

*User tries to create an account with wrong data or invalid characters.*

- Given** user is on the registration page,
- When** fill in the registration form incorrectly,
- And** taps on the NEXT or REGISTER button,
- Then** an error message should appear.

## Scenario #3 (Try to Sign up leaving empty fields)

*User tries to create an account without completing fields.*

- Given** user is on the registration page,
- When** leaving empty fields,
- And** taps on the NEXT or REGISTER button,
- Then** an error message should appear.

### Preconditions

- Have the app installed.
- Be on the sign up page.

- **SUT Version:** 106.0.5243.2
- **Environment:** Android 11 - TCL 20E

# Test Strategy

**Decision table:** The decision table technique seemed to me the best way to approach this User Story, since being a form, it has different input combinations.

✗:INVALID CHARACTER (NUMBERS) or NUMBER NOT ALLOWED

✓: VALID DATA

INPUTS SIGN UP	TC001	TC002	TC003	TC004	TC005	TC006	TC007	TC008	TC009	TC010	TC011	TC012	TC013

4	Tap on Gender and select one of the options		The gender is displayed correctly
5	Tap on NEXT button		A "please enter a valid date" message should appear and the next page should not be displayed.

---

**SUMMARY: TC005| US001 | Try to create an account in Chrome Canary without selecting a month.**

**Description**

Scenario #3 (Try to Sign up with empty fields)

- User tries to create an account without selecting a month.

 **Precondition: User must be on the “Basic information” Page**

TC005			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Day and fill in with a valid number.	"02"	The number is displayed correctly
2	The month field is left empty.		The month field should be empty.
3	Tap on Year and fill in with a valid number.	"1996"	The year is displayed correctly
4	Tap on Gender and select one of the options.		The gender is displayed correctly
5	Tap on the NEXT button.		A "please fill in a complete date of birth" message should appear and the next page should not be displayed.

**SUMMARY: TC006| US001 | Try to create an account in Chrome Canary with a invalid year.**

### Description

Scenario #2 (Try to sign up with wrong data)

- User tries to create an account with an invalid year.

 **Precondition: User must be on the “Basic information” Page**

## TC006

**Test Status: PASSED**

STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Day and fill in with a valid number	"02"	The number is displayed correctly
2	Tap on Month and select an option		The month is displayed correctly
3	Tap on Year and fill in with a invalid number	"1890"	The invalid number is displayed.
4	Tap on Gender and select one of the options		The gender is displayed correctly
5	Tap on NEXT button		A "please enter a valid date" message should appear and the next page should not be displayed.

**SUMMARY: TC007| US001 | Try to create an account in Chrome Canary with the gender field empty.**

### Description

Scenario #3 (Try to Sign up leaving empty fields)

- User tries to create an account leaving the gender field empty.

 **Precondition: User must be on the "Basic information" Page**

## TC007

**Test Status: PASSED**

STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Day and fill in with a valid number	"02"	The number is displayed correctly

2	Tap on Month and select an option		The month is displayed correctly
3	Tap on Year and fill in with a valid number	"1996"	The year is displayed correctly.
4	The gender field is left empty.		The gender field should be empty.
5	Tap on NEXT button		A "please select your gender" message should appear and the next page should not be displayed.

**SUMMARY: TC008| US001 | Try to create an account in Chrome Canary with the username field empty.**

#### Description

Scenario #3 (Try to sign up leaving empty fields)

- User tries to create an account leaving the username field empty.

**! Precondition: User must be on the "How you'll sign in" Page**

TC008			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	The username field is left empty.		The username field should be empty.
2	Tap on NEXT button		A "please enter a Gmail address" message should appear and the next page should not be displayed.

---

**SUMMARY: TC009| US001 | Try to create an account in Chrome Canary without a first name.**

**Description**

Scenario #3 (Try to Sign up leaving empty fields)

- User tries to create an account leaving the name field empty.

 **Precondition: User must be on the “Create a Google Account” page.**

TC009			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	The first name field is left empty.		The name field should be empty.
2	Tap on Surname and fill in correctly	"Medina"	The text is displayed correctly
3	Tap on NEXT button		A "please enter a first name" message should appear and the next page should not be displayed.

---

**SUMMARY: TC010| US001 | Test create an account in Chrome Canary without surname.**

**Description**

Scenario #3 (Try to Sign up leaving empty fields)

- User tries to create an account without a surname.

 **Precondition: User must be on the “Create a Google Account” page.**

## TC010

**Test Status: PASSED**

STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on First Name and fill in correctly	"Maria"	The text is displayed correctly
2	The surname field is left empty.		The surname field should be empty.
3	Tap on NEXT button		The next page should be displayed as the surname is <b>optional</b> .

**SUMMARY: TC011| US001 | Try to create an account in Chrome Canary with the day field empty.**

### Description

Scenario #3 (Try to Sign up leaving empty fields)

- User tries to create an account without a day of birth.

 **Precondition: User must be on the "Basic information" Page**

## TC011

**Test Status: PASSED**

STEP	ACTION	DATA	EXPECTED RESULT
1	The day field is left empty.		The day field should be empty.
2	Tap on Month and select an option		The month is displayed correctly
3	Tap on Year and fill in with a valid number	"1996"	The year is displayed correctly
4	Tap on Gender and select one of the options		The gender is displayed correctly
5	Tap on NEXT button		A "please fill in a complete date of birth" message should appear and the next page should not be displayed.

---

**SUMMARY: TC012| US001 | Try to create an account in Chrome Canary with the year field empty.**

### Description

Scenario #3 (Try to Sign up leaving empty fields)

- User tries to create an account without the year of birth.

 **Precondition: User must be on the “Basic information” Page**

TC012			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on day and fill in with a valid number.	"02"	The day is displayed correctly.
2	Tap on Month and select an option.		The month is displayed correctly.

## ✓ Acceptance Criteria

### Scenario #1 (Sign in - happy path)

User can successfully login.

**Given** user is on the Sign in page,

---

**When** enter the username and password correctly,  
**And** taps on the NEXT button,  
**Then** the user successfully logs in.

### Scenario #2 (Try to Sign in with wrong data)

User tries to login with the wrong username or password.

**Given** user is on the sign in page,  
**When** enter the username or password incorrectly,  
**And** taps on the NEXT button,  
**Then** an error message should appear.

### Scenario #3 (Try to Sign in leaving empty fields)

User tries to login without completing fields.

**Given** user is on the sign in page,  
**When** leaving empty fields,  
**And** taps on the NEXT button,  
**Then** an error message should appear.

### Preconditions

- Have the app installed.
- Have a registered account.
- Be on the sign in page.

- **SUT Version:** 106.0.5243.2
- **Environment:** Android 11 - TCL 20E

---

## Test Strategy

- Decision table: This time I choose again to use the decision table technique since this User Story has different input combinations.

INPUTS SIGN IN	TC001	TC002	TC003	TC004	TC005
EMAIL	✓	INVALID DATA	✓	NULL	✓
PASSWORD	✓	✓	INVALID DATA	✓	NULL
CAN LOGIN?	YES (HAPPY PATH)	NO	NO	NO	NO

---

## Test Cases

**SUMMARY:TC001| US002 | Test login in Chrome Canary with valid data.**

### Description

Scenario #1 (Sign in - happy path)

- User can successfully login.

 **Precondition: User must be on the "Sign in" Page**

TC001			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Email and enter valid data	"mm.test1996@gmail.com"	The email is displayed correctly.
2	Tap on NEXT button		The next page is displayed correctly.
3	Tap on password and enter valid data	"12345.test"	The entered password is shown correctly hidden with black dots.
4	Tap on Show Password checkbox		The entered password is now displayed without the black dots.
5	Tap on NEXT button		The login is successful.

**SUMMARY: TC002| US002 | Try to login in Chrome Canary with the wrong email.**

## Description

Scenario #2 (Try to Sign in with wrong data)

- User tries to login with the wrong email.

 **Precondition: User must be on the "Sign in" Page**

TC002			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Email and enter a wrong email.	"mmtest123@g.mail.com"	The wrong email is displayed.
2	Tap on NEXT button		An error message should appear and the next page should not be

			displayed.
--	--	--	------------

**SUMMARY: TC003| US002 | Try to login in Chrome Canary with the wrong password.**

### Description

Scenario #2 (Try to Sign in with wrong data)

- User tries to login with the wrong password.

 **Precondition: User must be on the "Welcome" Page**

TC003			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on password and enter invalid data	"123"	The entered password is shown correctly hidden with black dots.
2	Tap on NEXT button		An error message should appear and the next page should not be displayed.

**SUMMARY: TC004| US002 | Try to login in Chrome Canary leaving the email field empty.**

### Description

Scenario #3 (Try to Sign in leaving empty fields)

- User tries to login without enter an email.

**! Precondition: User must be on the "Sign in" Page**

TC004			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Email and leave it blank.		The email field should be empty.
2	Tap on NEXT button		An error message should appear and the next page should not be displayed.

**SUMMARY: TC005| US002 | Try to login in Chrome Canary leaving the password field empty.**

### Description

Scenario #3 (Try to Sign in leaving empty fields)

- User tries to login without entering a password.

**! Precondition: User must be on the "Welcome" Page**

TC005			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Leave the password field empty.		The password field is empty.
2	Tap on NEXT button		A "Wrong password" message should appear and the user should not be able to login.

---

## US003 | Search Tool | Test the Time dropdown list of the Search tool.

### *Description*

As a user,

I want to do a specific search according to a time range,

So that I can find exactly what I'm looking for faster.

### In Scope

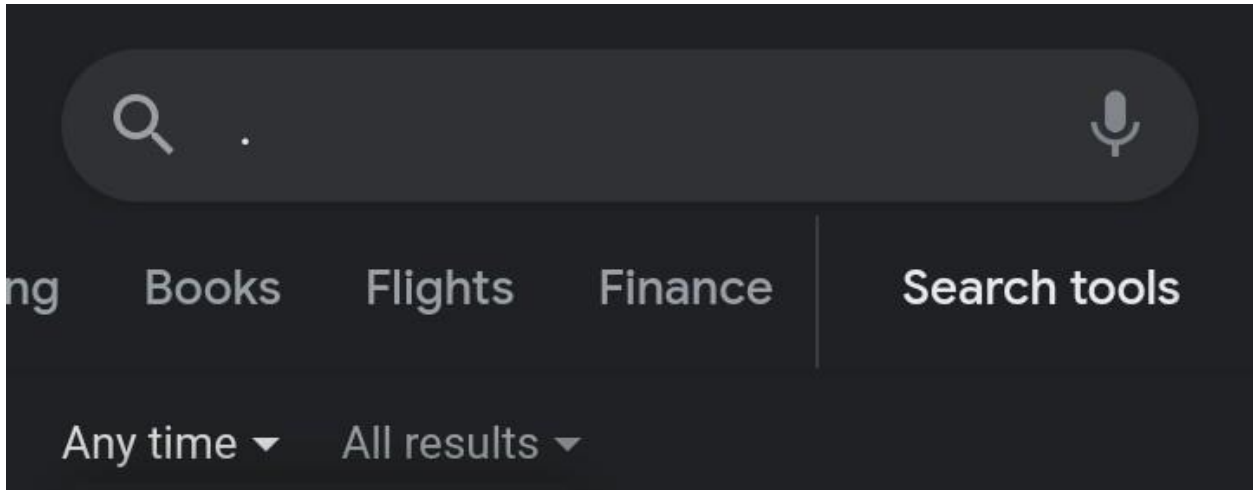

Check the the dropdown list of the search tools:

- Any time
- Past hour
- Past 24hs
- Past week
- Past month
- Past year

### Out of Scope

- Verbatim

## Mockup

## ✓ Acceptance Criteria

### Scenario #1

User makes a specific search by filtering the results with the Search tool, indicating a range of time of publication.

**Given** a user have an active search,

**When** taps on search tools ,

**And** select one of the search tools options to make the search more specific,

**Then** the specific search result should be displayed.

### Preconditions

- Have the app installed.
- **Have an active search. In this case, I entered "Buenos Aires Weather" in the search bar in all the test cases.**

- **SUT Version:** 106.0.5243.2
- **Device used for the test:** TCL 20E
- **OS:** Android 11

## Test Cases

**SUMMARY:** TC001| US003 | Test search with the "Any time" option of the search tools in Chrome Canary.

### Description

Scenario #1 - The user does a search selecting the "any time" option from the search tools dropdown list.

TC001			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list should appear with multiple time options.
2	Tap on the time dropdown list and select "any time"		It should only return results based on the search words and the selected time range.

---

**SUMMARY: TC002| US003 | Test search with the "Past hour" option of the search tools in Chrome Canary.**

### Description

Scenario #1 - The user does a search selecting the "Past hour" option from the search tools dropdown list.

TC002			
Test Status: FAILED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list should appear with multiple time options.
2	Tap on the time dropdown list and select "Past hour"		It should only return results based on the search words and the selected time range.

 **ACTUAL RESULT:** The selected time range works, but the search is less precise; shows results that have nothing to do with the search itself.

**BUG02** ( To see the Bug Report, go to the page 34 )

---

**SUMMARY: TC003| US003 | Test search with the "Past 24 hours" option of the search tools in Chrome Canary.**

### Description

Scenario #1 - The user does a search selecting the "Past 24 hours" option from the search tools dropdown list.

TC003			
Test Status: FAILED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list should appear with multiple time options.
2	Tap on the time dropdown list and select "Past 24 hours"		It should only return results based on the search words and the selected time range.

✗ **ACTUAL RESULT:** The selected time range works, but the search is less precise; shows results that have nothing to do with the search itself.

**BUG02** ( To see the Bug Report, go to the page 34 )

**SUMMARY: TC004| US003 | Test search with the "Past week" option of the search tools in Chrome Canary.**

### Description

Scenario #1 - The user does a search selecting the "Past week" option from the search tools dropdown list.

TC004			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list appears with multiple time options.
2	Tap on the time dropdown list and select "Past week"		It should only return results based on the search words and the selected time range.

---

**SUMMARY: TC005| US003 | Test search with the "Past month" option of the search tools in Chrome Canary.**

**Description**

Scenario #1 - The user does a search selecting the "Past month" option from the search tools dropdown list.

TC005			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list should appear with multiple time options.
2	Tap on the time dropdown list and select "Past month"		It should only return results based on the search words and the selected time range.

---

**SUMMARY: TC006| US003 | Test search with the "Past year" option of the search tools in Chrome Canary.**

**Description**

Scenario #1 - The user does a search selecting the "Past year" option from the search tools dropdown list.

TC006			
Test Status: PASSED			
STEP	ACTION	DATA	EXPECTED RESULT
1	Tap on Search tools		A dropdown list should appear with multiple time options.
2	Tap on the time dropdown list and select "Past year"		It should only return results based on the search words and the selected time range.

# BUG REPORT

## App Version

- 106.0.5243.2

## Environment

- TCL 20 E - Android 11

**BUG01 | US001 | It allows you to enter invalid characters without error message and allows you to continue to the next page.**

## Description

It allows the user to continue to the next page even when invalid characters (numbers or symbols) along with letters have been entered in the name and surname fields.

## Steps to reproduce

**Preconditions:** user must be on the “Create a Google Account” page.

1. Tap on Name
2. Enter letters and invalid characters (numbers or symbols). “M4r1a”
3. Tap on NEXT button

## Expected Result

A “please enter a valid name” or “Are you sure that you’ve entered your name correctly?” message should appear and the next page should not be displayed.

## Actual Result

It is allowed to enter a name and surname with invalid characters and the next page is displayed to continue with the registration.

**Evidence:** Go to the “Evidence” folder inside the “Chrome canary testing project” folder or [click here](#)

---

## BUG02 | US003 | Returns results that are unrelated to the search made.

### **Description**

It returns results that are not related to the search made.

### **Steps to reproduce**

**Preconditions:** user must have an active search.

1. Tap on Search Tools.
2. Tap on the time dropdown list and select “Past hour” or “Past 24 hours”.

### **Expected Result**

It should only return results based on the search words and the selected time range.

### **Actual Result**

The search is not precise; shows results that are unrelated to the search itself.

**Evidence:** Go to the “Evidence” folder inside the “Chrome canary testing project” folder or [click here](#)
